Fireworks are not only a summer tradition, but are also an art form that has been used since ancient times in Japan. However, fireworks are also very dangerous because they contain gunpowder so it is important to handle them with care. There have been many different accidents caused by fireworks such as fires, burns, and even explosions. In recent years, there have been incidents involving noise complaints and trash left behind from individuals who were using fireworks. As a result, the places in which people can use fireworks are becoming fewer with each passing year. There have been a growing number of local governments that have suspended the use of fireworks in parks and on vacant property due to resident complaints. It is important to make an effort to follow the rules and etiquette of firework use so that everyone is able to enjoy them in a safe manner.

★Firework Etiquette and Accident Prevention

- ① Prepare a bucket filled with water that you can use in the event that a fire starts while you are using fireworks.
- ② Only use fireworks in a spacious area and never point them towards other people, houses, or things that burn easily.
- ③ Make sure there is always an adult present when fireworks are being used.
- ④ Pick up any waste left after using fireworks and throw it away at home.

There have not been any fires or other accidents caused by fireworks within Seika Town, but there are concerns that parks of equipment and benches in parks may be burned or waste from fireworks may not be disposed of properly. Please practice proper etiquette and think of those around you when using fireworks.

Make sure to inspect your smoke detector 10 years after installation!

Smoke detectors are generally powered with a battery that lasts about 10 years. There is usually a button or string attached to your smoke detector that can be used to perform an inspection. Please inspect your smoke detector to make sure that it is working properly. If the alarm does not go off when tested, please change the batteries or exchange the main part of the smoke detector.

Vaccine Type: Pfizer

Eligible Individuals: Individuals age 60 and older or individuals between the ages of 18 and 59 who are immunocompromised or have pre-existing health conditions (Individuals who do not currently qualify for the 4th dose of the coronavirus vaccine may qualify at a later date. Please keep the vaccination ticket that you receive in the mail in a safe place.)

For individuals ages 60 and older (with some exceptions), the date and time of your appointment will be printed onto your vaccine registration ticket, so there is no need to make an appointment. If you need to change the date of your appointment, please refer to the information on the document.

※If you are considering receiving a fourth vaccination, please consult with your health care provider before applying. Please also answer a medical history questionnaire with your healthcare provider and confirm if you would benefit from a fourth vaccination based on your health condition. Your age will be based on the day that you receive the vaccine.

Receiving Vaccination Certificates at Convenience Stores

You will soon be able to pick up your vaccination certificate from convenience stores within Seika Town beginning mid-August. You will need to have your My Number Card with you in order to obtain your vaccination certificate. Please confirm where you will be able to pick up your vaccination certificate by visiting the Seika Town website.

※You will be able to pick up your vaccination certificate from local convenience stores until the end of this year.

Communicating Through Sign Language

Sign language is a way to communicate with those who are hard of hearing. This month's word is **deaf/hard of hearing!**

Take your right hand and make sure that it is open with your thumb facing your face. Center your hand on your face and lower it as pictured above.

Difficulties of Those Who are Hard of Hearing

Individuals who are deaf or hard of hearing often say that they can hear sounds, but are unable to understand what is being said. This is because the sounds of the words are being distorted. Under these circumstances, people who are hard of hearing communicate by using their remaining hearing ability as well as the information that they gather from around them. The practice of wearing masks as a way of protecting oneself from the coronavirus has prevented individuals who are hard of hearing from reading lips of people who are speaking and muffles the words of those they are trying to communicate with. Therefore, it is easy for these people to get left out of conversations. Communicating using sign language and writing is most effective way of communication in these circumstances.

What is the purpose of the Kururin Bus?

What is the purpose of the Kururin Bus that operates within Seika Town? The Kururin Bus began operating in 2005, but there was actually another bus that operated within Seika prior to this. This bus was called the Kashinokien Circulating Bus. It consisted of two lines, the Rose line and the Kashinoki line. This bus line connected residents to the various facilities and locations around town with Kashinokien being the final stop.

Although the transportation system of Seika Town was developed to center around development areas such as the research area and Hosono station, there were virtually no existing bus routes at the time so maintaining a means of transportation became an important topic to residents. The Rose Line and Kashinoki Line were selected to be expanded and improved in order to solve the transportation issue. Following this, the route and schedule of the bus has changed many times over the years, but it is because of all of the people that use the bus daily that have allowed it to continue to be in operation today.

In this way, the Kururin Bus was created based on the Kashinokien bus as a way to provide access to facilities and to allow civilians to be able to travel to areas once inaccessible by bus. Seika Town hopes to continue to make these buses easy for residents to use.

Norman, Oklahoma's New Mayor

On July 5th, 2022 mayor elect, Larry Heikkila, was sworn in as the new mayor of Norman, Oklahoma. Along with the appointment of Heikkila, there were several other city councilors who were also sworn in to their new positions. During the runoff election, Heikkila ran his mayorial campaign on a promise to boost public safety funding in Norman. After Heikkila was sworn in as the new mayor, a packed room was filled with applause and cheers of his supporters. Former mayor, Breea Clark, was in Italy at the time and was unable to attend the ceremony. As a result, Clark uploaded a video to Facebook wishing success to Mayor Heikkila and also asked for the residents to support the new mayor during this transition period.

About our Sister City - Norman, Oklahoma

Seika Town has maintained a sister city relationship with Norman, a city in Oklahoma, USA, since 2005, and a friendly relationship through Kyoto Prefecture's sister state connection since 1985. The two municipalities work together to promote international exchange and cultural understanding to create more globally-minded communities.

Sports Day

On Sunday, June 12th, a "Sports Day" event was held at Mukunoki Center in collaboration with Seika Global Net. The goal of this event was to utilize sports as a way to facilitate multicultural exchange and understanding. There were a total of about 40 participants including local residents as well as foreigners living in the area.

Everyone was able to interact with one another through games such as the chasing ball throwing game (as pictured above), the traditional Hawaiian game of "Ulumaika", and a country of the world flag search game.
